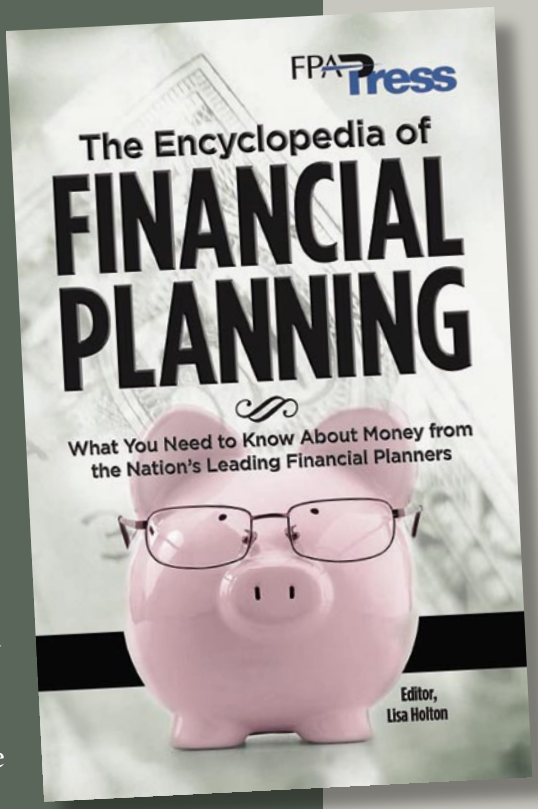
In recent years, Financial Planning Association® (FPA®) has created an extensive archive of information on financial planning topics. FPA—the organization on which thousands of financial planning professionals rely—has drawn from that archive and collected up-to-the-minute observations from its top financial planners to create *The Encyclopedia of Financial Planning: What You Need to Know About Money from the Nation's Leading Financial Planners.*



This book is designed to help current and prospective financial planning clients make smart financial decisions and realize their life's dreams, whatever their financial situation and whatever their stage in life.

"When the nation's leading professional financial planning organization publishes its first book for consumers, you would expect to read an excellent book. FPA Press will exceed your expectations with *The Encyclopedia of Financial Planning: What You Need to Know about Money* from the Nation's Leading Financial Planners."
